Ringless Voicemail Creation Guide

Step 1

On the left hand side of the screen, select "Ringless VM" from the Configure Menu panel.

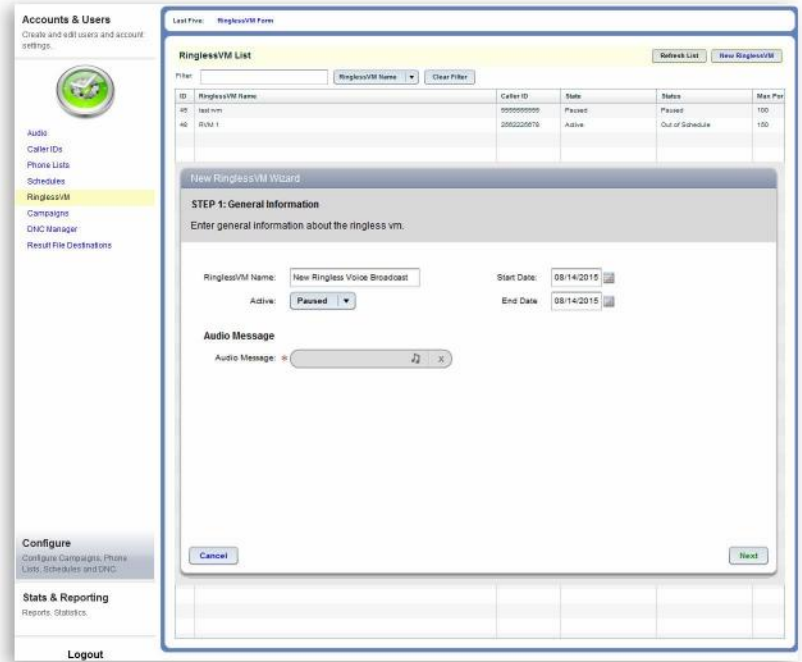

Here you can see a list of all of the RVM campaigns associated with your account.

Click "New Ringless VM" at the top right.

Enter a name for this Ringless Voicemail campaign. Set a Start & End Date for your campaign.

Active refers to whether the campaign is active or paused.

(Paused campaigns will not start.)

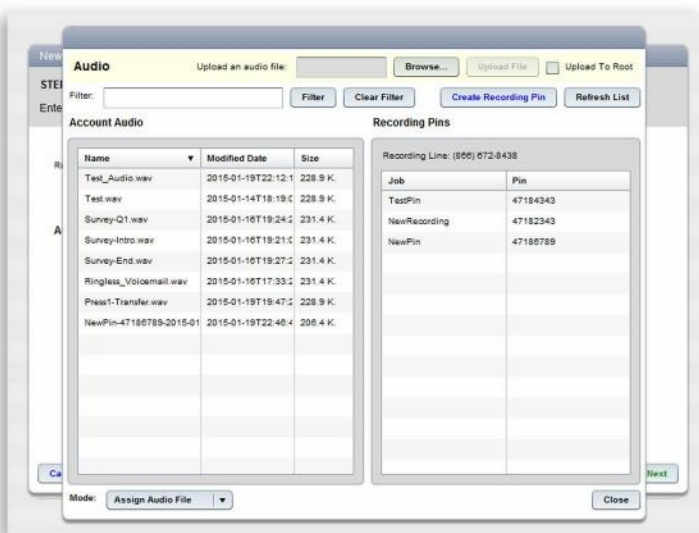

Audio Selection

Click on the music note to assign the audio file for this campaign.

Here you can select any audio file currently in your account. You can also upload new audio files from this menu.

Click Browse and locate the file you wish to use, click the Upload File button, press Refresh List, now double click your newly uploaded file to assign it.

Click Close when this is complete.

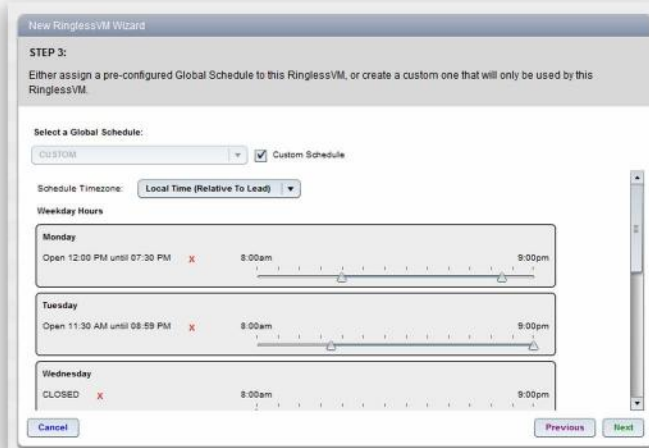

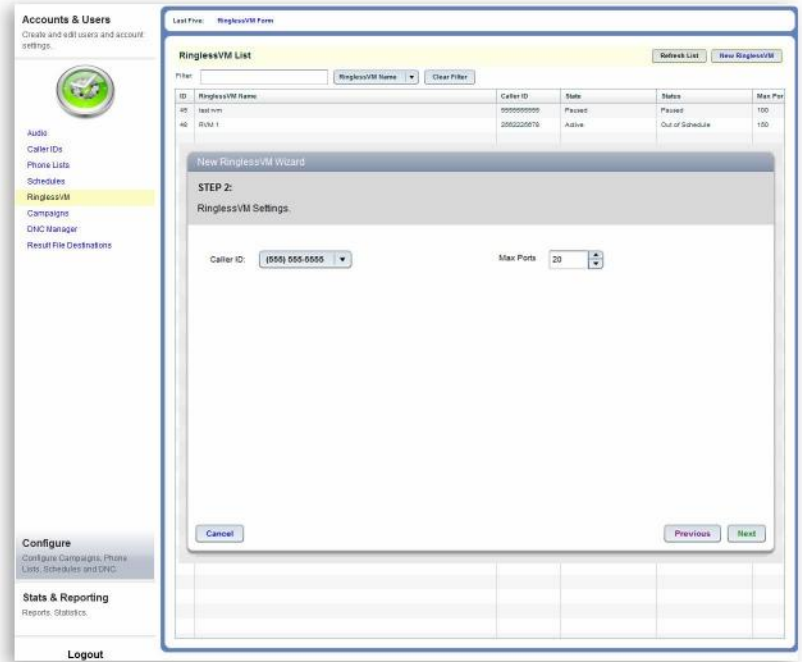

Ringless Voicemail Creation Guide

Configuration

Click on Caller ID to open the Caller ID menu. In this screen you can select the Caller ID that you want to use for this campaign. Double-click to assign it.

Now set the number of concurrent deliveries lines to deliver on in the Max Ports field. 10-20 is generally sufficient for most Ringless Voicemail campaigns.

Click next when complete.

Scheduling Your RVM Campaign

If you want to create a custom schedule for this campaign, select Custom Schedule. If creating a custom schedule, select the Schedule Time Zone. The default is Local time, Relative to Lead. This will deliver to each phone number according to the schedule within that phone number's specific time zone.

There is also the option to select a specific time zone for the schedule. This will start the campaign at the time you set. Next, you will drag the slider bars for each day to your desired broadcast time frame. Click the X on any days you do not wish to broadcast on.

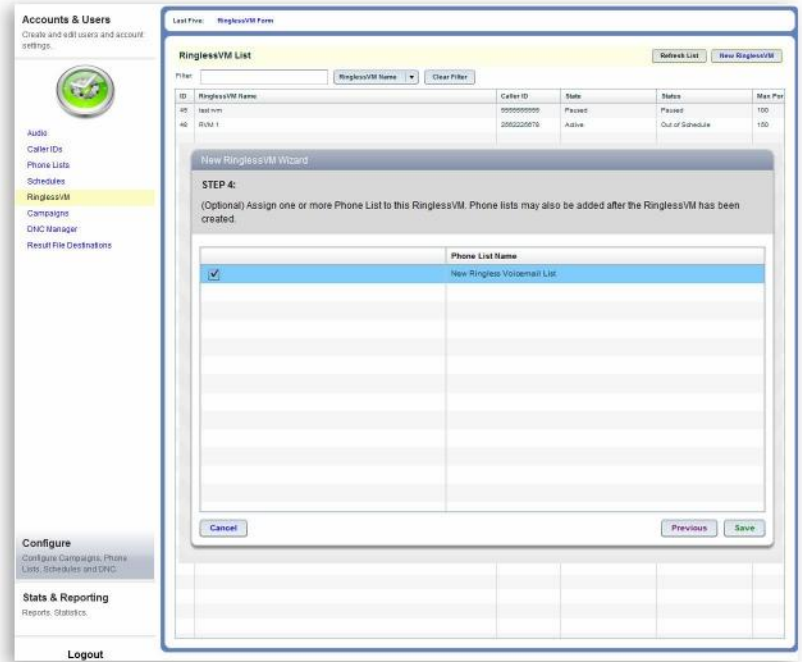

Click Next when complete.

Assigning Phone Lists to Your Campaign

On this page you can assign one or more phone lists that you want for this campaign. Simply click the checkbox for every list that you want to assign to this campaign.

When done, click save in the bottom right.

Activating Your Ringless Voicemail

Your Ringless Voicemail campaign is now ready to launch! Select your campaign by double-clicking on it. Here you can review the details of the campaign. You can use the tabs at the top of the page to make any necessary changes to the broadcast.

Before setting the campaign to active, always make sure to do a test drop. In the top right of the screen, click test call. Put the cell phone number that will receive a test. You can also choose to have a results email sent to you.

When you're satisfied with the settings and have done a test drop, select the drop down menu beside Campaign State and set it to Active. Click Save in the top right and your RVM campaign will initialize for sending.
